

"Face your fear and  
it will lose its power over you."

The story of *The Dragon King* began as a chance meeting  
in a hospital with a boy who had been badly burned.

What started as a simple desire to encourage a child has  
now become an illustrated children's book (also in Spanish),  
audio book, musical and values education curriculum.

The mission of *The Dragon King* is to empower children  
and nurture in them the skills necessary to thrive in life.  
To that end, our goal is to give away to hospitals, burn  
camps, and other children's charitable services, one book for  
every book sold.
